Jon Newhall phoned to check out an Earth News report that Gregory told the DJ that he and his "investigators" have a confession from one of three alleged assassins and that he is willing to talk if granted immunity. Not against murder (it never occured to any of these geniuses that DJ can't grant Texas immunity) but against "treason" because this assassin has a KGB complicated past.

He is ready to name names, too, this assassin. Wonder if he is Castillo? Hicks? Bantons?

Naturally DJ says with all proper solemnity they are taking this seriously. They confirm their meetings, etc.

Jon is sending me some San Diego material. He had expected it to be here today but it isn't. He mailed it.

Do you have the "packet of materials" Mark and Bud sent Congress?
